catering.

- We can provide catering and/or beverages:
 - For the food service provider, we work with an Italian restaurant called 'Il Cilento'. They offer a great finger food menu. You are also welcome to provide your own food/catering.
 - When the bar is operational, the drinks have to be purchased from the bar. However, if it's not, you are more than welcome to provide your own drinks. Also, if you have any special beverage requirement, please let us know and we will do our best to accommodate you.
- If you'd like us to provide catering, we'll need to know at least 2 weeks before the event.
- We do have space/electrical infrastructure and worked with food trucks before.
- Half day rentals include 1 coffee break, full day rentals include 2 coffee breaks (coffee, tea, still and sparkling water).
- If you provide the drinks, all associated supplies (glasses etc.) must be provided and served by you. Although, if you want to use Foundry's glasses, we need to provide some kind of beverage - the most basic offering would be still & sparkling water 1.50€ pp, you could then provide your own alcohol/softs and we'll provide all the glasses for both water and alcohol for up to 80 people. If you purchase drinks from the bar, all glasses will be provided by Foundry at no extra cost.
